Interdisciplinary Studies

UCI offers a variety of interdisciplinary programs of study which span the boundaries of traditional academic scholarship and provide students with opportunities to pursue subject areas deriving from the interaction of different disciplines. Faculty participation is determined by research and teaching interests and, as such, faculty may be drawn from various departments and schools across the campus.

This section presents information about the following:
Business Information Management (catalogue.uci.edu/previouseditions/2013-14/interdisciplinarystudies/businessinformationmanagement) (major)
Computer Science and Engineering (catalogue.uci.edu/previouseditions/2013-14/interdisciplinarystudies/computerscienceandengineering) (major)
Civic and Community Engagement (catalogue.uci.edu/previouseditions/2013-14/interdisciplinarystudies/civicandcommunityengagement) (minor)
Global Sustainability (catalogue.uci.edu/previouseditions/2013-14/interdisciplinarystudies/globalsustainability) (minor)
History and Philosophy of Science (catalogue.uci.edu/previouseditions/2013-14/interdisciplinarystudies/historyandphilosophyofscience) (minor)
