Overview

The Department of Criminology, Law and Society focuses on the problem of crime and on understanding the social, cultural, political, and economic forces that interact with the law. Basic courses present overviews of American legal systems with particular emphasis on criminal and juvenile justice, forms of criminal behavior, the role of law in understanding social and psychological phenomena, and the applications of sociological theory in understanding law and legal systems. Subsequent course work provides a deeper understanding of the causes and consequences of crime, criminal justice policy, and socio-legal theory, including how legal institutions can both address problems of inequality and exacerbate those problems.

Students are provided with opportunities to become acquainted with the varieties of behavior that society chooses to control or regulate, the methods and institutions used to achieve that control or regulation, and the approaches aimed specifically at altering behavior deemed unacceptable. In addition, there is provision for students to use their increasing knowledge of the law, its procedures, and institutions to enhance their understanding of the social sciences.

The course of study provides excellent preparation for law school and for graduate study in sociology, criminology, and criminal justice. Careers for students who terminate their University education at the baccalaureate level may be developed through placements in criminal justice and regulatory agencies, in organizations determining public policy, and in programs that deliver services to people who have difficulties with some aspect of the legal system.

Field study placements are available in police departments, public defenders’ offices, probation and parole agencies, the Orange County District Attorney’s Office, the State juvenile detention system, the Orange County Victim/Witness Assistance Program, juvenile shelters, legislative offices, and in private legal firms.

Graduate Program

General information about the School of Social Ecology’s graduate programs, including admission requirements, career opportunities, and Ph.D. program milestones can be found in the School of Social Ecology Graduate section of the Catalogue. Specific information about the Department of Criminology, Law and Society’s graduate program appears below.

Graduate Emphasis in Race and Justice Studies

Students from any UCI state-supported graduate or professional program, including J.D., Master’s, and M.F.A. students, are eligible to apply to the Emphasis in Race and Justice Studies, housed in the Department of Criminology, Law and Society. The Emphasis in Race and Justice Studies is comprised of three interconnected components that promote inclusive excellence: 1) A first-year mentorship proseminar; 2) Interdisciplinary coursework and writing that emphasizes cross-departmental interests and perspectives on critical studies of race, crime, and law; 3) Engagement with diverse audiences through traditional and innovative forms of research presentation.

Students may apply for admission into the emphasis upon completion of the first-year mentorship of the proseminar. Admitted students who satisfactorily complete the program requirements will be awarded a letter signed by the Director noting that the student has incorporated Race and Justice studies into their research and professional activities. Each student will be assigned a peer and faculty mentor to discuss the student’s ongoing research and the value of inclusive excellence.

Requirements

1. A first-year mentorship proseminar, consisting of nine workshops, discussions, and presentations offered over three quarters by selected faculty from across campus with experience negotiating policies and conducting research with high impact on fostering inclusive excellence. Students will receive a grade for this proseminar in the spring quarter.

2. One Race and Justice Studies-approved course offered under the supervision of the emphasis.

3. A writing seminar in which a paper developed through Race and Justice Studies coursework and programming will be workshopped and revised toward publication.

4. A public presentation which translates the students Race and Justice Studies-influenced research for an interdisciplinary audience, which can include but is not limited to those found through professional associate conferences, small symposia and colloquia, social media publications, community-based collaborations, program and policy consultations, and artistic or alternative media formats.
Admission
The following is needed to apply for admission

1. Satisfactory completion of the first-year mentorship proseminar.
2. A statement of interest.
3. An unofficial transcript.
4. One faculty reference letter that speaks to the student's capabilities.
5. Endorsement of the student's application by the student's advisor. The student's advisor may provide the reference letter. The deadline for this application is week 10 of the spring quarter of the student's first year of graduate study.

Petition for Formal Letter of Completion
A transcript showing satisfactory completion of coursework, a writing seminar paper, and a one-page report of public presentation is required for the petition for a formal letter of completion. The deadline for this petition is week 10 of the spring quarter of the student's third year of graduate study.

For students admitted to graduate study before fall 2016, prerequisites must be fulfilled between fall 2016 and spring 2019 and requirements must be fulfilled between fall 2016 and spring 2021. Upon approval by the Director, students may use prior coursework to satisfy one of the requirements of the Emphasis.

M.A.S. in Criminology, Law and Society
The Master of Advanced Study (M.A.S.) in Criminology, Law and Society, the first online degree program at the University of California, prepares professionals for leadership positions in criminal justice and the legal professions. The curriculum emphasizes theoretical and practical applications central to crime and its control, social policy, and the law. In keeping with one of the main tenets of the School of Social Ecology, students approach topics from a multidisciplinary perspective.

Program Details
This program is ideally suited for professionals interested in obtaining positions in or currently working in the criminal justice or legal fields and who are seeking a graduate degree for career advancement. The program consists of 52 units of coursework which is completed sequentially in two years (6 quarters). Students may begin the program during fall, winter or spring quarter. An optional one-week in-residence introductory course is scheduled right before fall quarter. In lieu of a thesis, students are required to take a capstone course. In addition to the capstone course, students take two other required courses (CRM/LAW C214 and CRM/LAW C215) and choose from elective courses to fulfill the remaining 40 units. The M.A.S. is awarded upon completion of 13 courses (52 units).

Master of Legal and Forensic Psychology
The Master of Legal and Forensic Psychology is designed for professionals or recent graduates who wish to further their education and gain skills that will help them obtain careers in the field of legal and forensic psychology. Students will be immersed in an interdisciplinary field devoted to advancing scholarship, testing theories, and engaging in public service relevant to individuals’ participation and experiences in legal contexts.

For more information, visit the Psychology and Social Behavior Graduate tab.
Ph.D. in Criminology, Law and Society

The study of crime, institutional responses to illegal behavior, and the interaction of law and society are the foci of the doctoral program in Criminology, Law and Society. Students examine issues related to the etiology of crime, the process of changing criminal behavior, social regulation, the civil justice system, and the social and cultural context of law.

Students gain familiarity with a number of subjects including sentencing; crime rates; modes of modifying criminal behavior; police behavior; white collar and organized crime; policies against hate crimes; behavior of courts, juries, and regulatory agencies; environmental law; immigration lawmaking; Native American justice issues; and the interaction among law, culture, and identity. In general, students are introduced to the leading classical and contemporary issues in criminology, law and society and to ways of understanding them through interdisciplinary research. The program aims to develop theoretical sophistication and to prepare the graduate student for faculty positions at major universities; and for research and administrative work in institutions in the legal system, the criminal justice system, and related organizations.

Two elective courses in Criminology, Law and Society. ¹

¹ These elective courses should be chosen according to a plan that best meets the needs of the individual student, as determined in consultation with the student's faculty advisor. They should satisfy the elective requirement with regularly scheduled courses (with rare exceptions).

(Note: An initial faculty advisor for each new Criminology, Law and Society student is assigned by the Criminology, Law and Society Graduate Advisor. Students, however, are expected to choose their own faculty advisor during their first year of study based on research interests. Students must notify the Criminology, Law and Society Graduate Advisor and the Departmental Graduate Coordinator of any changes in advisors.)

Students become involved in research activities from the earliest stages of their training and complete an independent, supervised research project during the second year of graduate study. Methods of research may include questionnaires and surveys, systematic field observation, computer simulation, legal analyses, and archival research.

Advancement and Completion

Students complete a written comprehensive examination during year three, which requires them to demonstrate mastery of major issues in criminology, and law and society. The normative time for advancement to candidacy is four years (three years for students who entered with a master’s degree). Students are required to advance to candidacy by the end of fall quarter of their fifth year of study, adjusted for any approved leaves of absence. The fourth and, possibly, fifth years of study are devoted to developing and defending a dissertation proposal and completing dissertation research. The normative time for completion of the Ph.D. is six years, and the maximum time permitted is seven years. (For students who have waived two required courses and the second-year project based upon master’s-level work completed at another institution, the time to degree is five years, with a maximum of six years.) All Ph.D. students in the Criminology, Law and Society program are required to pass a final oral defense of the dissertation. Opportunities for field placements in legal and criminal justice settings also are available.

Program in Law and Graduate Studies (J.D./Ph.D.)

Highly qualified students interested in combining the study of law and graduate qualifications in Criminology, Law and Society are invited to undertake concurrent degree study under the auspices of UC’s Irvine’s Program in Law and Graduate Studies (PLGS). Students in this program pursue a coordinated curriculum leading to a J.D. degree from the School of Law in conjunction with a Ph.D. degree in Criminology, Law and Society. Additional information is available from the PLGS Director’s office, 949-824-4158, or by email to plgs@law.uci.edu. A full description of the program, with links to all relevant application information, can be found at the School of Law Concurrent Degree Programs website (http://www.law.uci.edu/academics/interdisciplinary-studies/concurrent-degrees.html).
