The graduate program in Visual Studies, administered by the faculty of the Department of Art History, offers students the opportunity to pursue a doctorate in the cultural analysis of visual artifacts and experiences. With a commitment to theoretically rigorous inquiry, Visual Studies synthesizes methodological insights from a wide variety of disciplines and interdisciplinary fields, including art history, archaeology, architectural history, design history, and environmental studies. The program leads to a Ph.D. in Visual Studies. While the program (in certain instances) grants an M.A. to students en route to their Ph.D., it admits only those students intending to complete their doctorate at UCI.

In addition, an emphasis in Visual Studies, described on the Requirements tab, is available to Ph.D. and M.F.A. students in all departments at UCI.
